

STATE OF HAWAII
DEPARTMENT OF LAND AND NATURAL RESOURCES
Division of Forestry and Wildlife
Honolulu, Hawaii 96813

July 14, 2006

Chairperson and Members
Board of Land and Natural Resources
State of Hawaii
Honolulu, Hawaii

Land Board Members:

**SUBJECT: REQUEST APPROVAL OF CONTRACT WITH MS. TERESA
TRUEMAN-MADRIAGA TO COORDINATE THE FEDERALLY
FUNDED URBAN AND COMMUNITY FORESTRY PROGRAM FOR
THE DIVISION OF FORESTRY AND WILDLIFE**

The Federal 1990 Farm Bill for Urban and Community Forestry authorized the USDA Forest Service, to provide financial and technical assistance to State Forestry agencies to plant, maintain and improve urban landscapes in Hawaii. Since 1991, the Division of Forestry and Wildlife has been fortunate to retain the services of Ms. Teresa Trueman-Madriaga to administer this successful program statewide. The Urban and Community Forestry Program which is called Kaulunani, means "to beautify with trees the neighborhoods in which we live, work and play."

Through Kaulunani, the DLNR Division of Forestry and Wildlife awards cost-share grants to community groups to help them to develop their neighborhood tree planting or environmental education projects. Since Kaulunani began more than ten years ago, the Department has awarded more than 300 urban forestry grants to communities on Maui, Oahu, Kauai, Molokai and the Big Island, and more than \$1,400,000 federal dollars have been leveraged with nearly \$5,300,000 million in matching contributions coming from the private sector and community group contributions. Ms. Trueman-Madriaga's primary responsibility is to administer the program for the Department and provide program assistance to the Chairperson of the Kaulunani Council. She prepares quarterly Council meeting agendas, works with grantees, and prepares grant applications for approval. Additionally, she writes Federal grant proposals, provides bi-annual reports, and provides the necessary data for the National Performance Measures & Accountability System.

As a result of her exemplary work in Hawaii, Ms. Trueman-Madriaga was appointed by the U.S. Secretary of Agriculture to serve on the National Urban and Community Forestry Advisory Council. Her term ran from December 2001 through December 2004. The national council

ITEM C-4

July 14, 2006

represents a variety of interests and areas of professional expertise relating to the national Urban and Community Forestry Program. Her current contract term expires October 2006.

The Department received Governor Lingle's approval to contract these services on April 28, 2006 and the Department of Budget and Finance approved this contract on March 15, 2006 (Attached). The Division of Forestry and Wildlife followed the "Request For Proposals" procurement procedures by placing the RFP on the State Procurement Notice website <http://www4.hawaii.gov/bidapps/ShowBids.cfm?StartRow=101>. Ms. Teresa Trueman-Madriaga was the only applicant, and was the Divisions' selection for these services for the State.

Funding for the Urban and Community Forestry Program has been granted by the USDA Forest Service, and has remained at a level that allows for this position; therefore this contract covers a period of two years, or 24 months. The contract agreement clearly states that federal funds to be paid by the state to Mrs. Trueman-Madriaga, shall be made subject to appropriations on an annual basis in the amount of \$66,500.

RECOMMENDATION:

That the Board approve the two-year contract with Ms. Teresa Trueman-Madriaga for \$133,000 to coordinate the Urban and Community Forestry Program for the State of Hawaii during the period of October 2006 to October 2008 subject to the following:

- 1) Availability of Federal funds.
- 2) Review and approval as to form of the contract by the Department of the Attorney General.

Respectfully submitted,

PAUL CONRY
Administrator

MEMORANDUM

TO: THE HONORABLE LINDA LINGLE
Governor of Hawaii

THRU: HONORABLE GEORGINA KAWAMURA
Director of Finance Department of Budget and Finance

FROM: *[Signature]* PETER YOUNG, Chairperson
Board of Land and Natural Resources

SUBJECT: Request for approval of Consultant Services, Pursuant to Budget Execution Policies and Instructions Memo No. 03-09 for the following federally funded Urban & Community Forestry Program projects:

- 1) Urban & Community Forestry Program Coordinator
- 2) Urban & Community Forestry Volunteer/Technical Coordinator

A. Types of Services.

Consultant services to achieve objectives of the federally funded Urban & Community Forestry Program, also known as Kaulunani.

B. Purpose for Requiring Services.

The federal Cooperative Forestry Assistance (CFA) Grants provides federal funds to the Department of Land and Natural Resources to implement urban beautification and forest management partnerships on public and private lands with community groups and landowners throughout Hawaii. Due to the Department's current operating budget and staff limitations, these federal grants are essential to the continuation of a number of important and successful core forestry programs. These core programs include the Urban & Community Forestry Program - Kaulunani.

A T T A C H M E N T

C. Nature and Description of Services to be Provided.

The Urban & Community Forestry Program is a United States Department of Agriculture Forest Service program, authorized as part of the Forestry Title of the 1990 Farm Bill passed by the 101th Congress. Under this mandate, State Foresters are responsible for providing statewide leadership and support to develop and improve local community urban tree planting and care projects. Since 1991, this program has helped to beautify many community landscapes throughout the nation, Hawaiian Islands and in the Pacific.

In order for Hawaii to receive federal program funds to implement this program, the Department is required to maintain a full-time program Coordinator Position. With the strong statewide interest in this program, the Department has utilized the option to employ a second full-time person for this program – Volunteer/Technical Coordinator. During the State fiscal year 2004 (July 1, 2003 – June 30, 2004) the Department received \$400,000. During the fiscal year 2005 (July 1, 2004 – June 30, 2005) the Department received \$428,000 for this program, fiscal year 2006 (July 1, 2005 – June 30, 2006) the Department received \$390,000.

The Urban & Community Forestry Program Coordinator will: 1) Revise and implement the State Strategic Urban and Community Forestry Plan to reflect the current year's program goals and objectives; and 2) Conduct the business of the State Urban & Community Forestry Council, which assists the Department in implementing the State Urban & Community Forestry Plan, produce reports bi-annually for State and Federal purposes, seek non-federal funding to expand the program, collect and manage all matching documents, and provide all necessary paperwork to ensure payments are processed and received throughout the year.

The Volunteer/Technical Coordinator will: 1) Process all initial Kaulunani grant applications, 2) Direct the outreach and volunteer program to support existing and new community tree planting efforts in cities and communities in Hawaii; 3) Provide technical assistance and tree planting and/or tree care information to urban forestry projects statewide; and 4) Provide expertise and technical guidance to the State Urban & Community Forestry Council; 5) Implement and expand the Tree City USA program throughout the State.

D. Outcome/benefits to be Realized from the Services.

All Urban & Community Forestry projects will contribute to the health, beauty, and protection of Hawaii's Urban Forests. During the State's fiscal years 2003 and 2006, this program put \$250,000 towards developing Weed Risk Assessment (WRA) procedures. These efforts have achieved an unprecedented collaboration between the State, the Forest Service, the University of Hawaii, the state landscaping industry, and the state nursery industry. Implementation of the WRA will ultimately lead to the adaptation of a 'Code of Conduct' throughout the landscaping and nursery industries. Most importantly, these efforts have and will continue to contribute to the health of all of Hawaii's forests by

stemming the flow of and devastation caused by exotic invasive species. Additionally, Kaulunani works with various schools throughout the State to improve urban landscapes on school property, while simultaneously providing on-site environmental education opportunities for students.

E. How the Contracts are to be Monitored.

Contractors will submit monthly progress reports to the Cooperative Resource Management Forester detailing program accomplishments and documentation of costs to the Department.

F. Why Services Cannot be Performed Internally.

The Forest Service requires the State to designate a full-time employee to coordinate this program. With existing staff, numerous employee cutbacks, and budget limitations the Department cannot provide the services required to successfully implement the Urban & Community Forestry Program according to federal requirements and the increasing local need. Currently, one staff Forester (Cooperative Resource Management Forester) is tasked with the administration of four Cooperative Federal Programs (Forest Legacy, Forest Stewardship, Urban & Community Forestry, and Forest Lands Enhancement) and the State Forest Stewardship Program. Without the assistance of eligible contractors and sub grantees, all cooperative forestry programs would be negatively impacted and the Urban & Community Forestry Program in Hawaii would cease to exist. The Department is the authorizing State agency to receive these program grants with the USDA, Forest Service. No other State Department is authorized to receive program funding from the Cooperative Forestry Assistance Program under their normal State function and responsibility.

G. Cost Summary and Means of Finance.

Urban & Community Forestry Program - Coordinator

State Fiscal Years 2003 & 2004 costs = \$63,000 per year; Federal Funds

State Fiscal Years 2005 & 2006 costs = \$66,500 per year; Federal Funds

State Fiscal Years 2007 & 2008 costs (projected, per year) = \$66,500; Federal Funds

Urban & Community Forestry Program - Volunteer/Technical Coordinator

State Fiscal Years 2003 & 2004 costs = \$55,000 per year; Federal Funds

State Fiscal Years 2005 & 2006 costs = \$61,529 per year; Federal Funds

State Fiscal Years 2007 & 2008 costs (projected, per year) = \$61,529; Federal Funds

H. Time Frame of the Services

August 1, 2006 to July 31, 2008

Please call Sheri S. Mann, Cooperative Resource Management Forester, at the Division of Forestry and Wildlife at 587-4172 if you have questions or concerns regarding the forestry program described herein.
